

## **WARNING**

**Wire rope will fail if worn-out, shock loaded, overloaded, misused, damaged, improperly maintained or abused.**

- **Always inspect wire rope for wear, damage or abuse before use**
- **Never use wire rope which is worn-out, damaged or abused**
- **Never overload or shock load a wire rope**
- **Inform yourself: Read and understand the guidance on product safety given in this catalogue; also read and understand the machinery manufacturer's handbook**
- **Refer to applicable directives, regulations, standards and codes concerning inspection, examination and rope removal criteria**  
**Protect yourself and others - failure of wire rope may cause serious injury or death!**
